

4 February 2021

Dear Student,

We are pleased to let you know that the Outwood Grange Academies Trust is introducing the new “FutureFIT” programme to all our secondary schools to help every student to consider and get information about the exciting range of careers and employment you could go into. The FutureFIT programme will show where your school learning is used, and how it is important in a large range of different industries and employment roles.

You will start to see the FutureFIT video resources in your classrooms, as part of your lesson plans, from April this year. Before that, you will be shown some introductory videos that will give you some great knowledge about the world of work and what you can start thinking about – right from Year 7 onwards! When you return to school, you’ll notice posters and digital material regarding FutureFIT around the school.

You’ll have the opportunity to hear from a fantastic range of people from industry and higher education, talking about their experience and careers. Hopefully they will inspire you to think about career pathways of your own. We are delighted to be introducing this exciting programme at this very important time, as the world of work will look very different when you start to enter it!

We hope you enjoy the new additions to your learning and we’ll be asking for your feedback in a series of questionnaires over this year.

Kind regards

*T Daniels*

Mr T Daniels  
Assistant Principal
